## RULES AND REGULATIONS

This schedule of Rules and Regulations governs the furnishing of water service by Green-Taylor Water District hereinafter referred to as the DISTRICT and applies to all service received from the DISTRICT. No employee or individual Commissioner of the DISTRICT is permitted to make an exception to Rates, Rules and Regulations. All Rules and Regulations are to be in effect so long as they are not in conflict with Public Service Commission Rules and Regulations. The DISTRICT is further subject to all Rules and Regulations of the Public Service Commission even though not contained herein.

### Revisions

These Rules and Regulations are hereby adopted, subject to change by the Commission at any time. These Rules and Regulations are intended to supplement the Bond Resolution, the Rate Resolution and the By-Laws.

### 2. Application for Service

Any person, firm, agency, or governmental entity within the current boundary of the DISTRICT may request service. Said request must be approved by the DISTRICT. All taps and connections to the mains of the DISTRICT shall be made by and/or under the direction and supervision of DISTRICT personnel.

Leak Adjustments. A customer may make a request for a bill adjustment in the event of a leak under the following conditions:

1. The customer must request a leak adjustment in writing to the utility.
2. The customer's bill will be based on two components. The first step will be to calculate the customer's average monthly usage over a twelve-month period. The second step will be to deduct the customers average monthly usage (as calculated in the above) from the total amount of water that passed through the meter. The usage calculated in step one will be billed at the utility's regular rates, while the remaining usage will be charged at the per thousand gallon leak adjustment rate, as set forth in the rates and charges portion of the utility's approved tariff. All water passing through the meter must be accounted and paid for by the customer. So the customer will owe the amount of his/her average bill plus the per thousand gallon leak adjustment rate for the remainder of the water that passed through the meter.
3. If meter readings are not available for an entire twelve-month period, the water bill will be estimated by the utility, subject to an upward or downward adjustment once a twelve-month average of actual meter readings can be calculated.
4. Only one (1) leak adjustment will be made per twelve-month period.
5. The Leak Adjustment Rate shall be:

\$2.00 per 1,000 Gallons

DEPOSITS

The Green-Taylor Water requires a minimum cash deposit or other guaranty to secure payment of bills except for customers qualifying for service reconnection pursuant to 807 KAR 5:006, Section 15, Winter Hardship Reconnection. Service may be refused or discontinued for failure to pay the requested deposit. Interest, as prescribed by KRS 278.460, will be paid annually either by refund or credit to the customer's bill, except that no refund or credit will be made if the customer's bill is delinquent on the anniversary date of the deposit.

Required deposits will be returned after one (1) year if the customer has established a satisfactory payment record for that period. If a deposit has been returned and the customer fails to maintain a satisfactory payment record, a deposit may then be required. The Water District may require a deposit in addition to the initial deposit if the customer's classification of service changes or if there is a substantial change in usage. Upon termination of service, the deposit, any principal amounts, and any interest earned and owing will be credited to the final bill with any remainder refunded to the customer.

If a deposit is held longer than 18 months, the deposit will be recalculated at the customer's request based on the customer's actual usage. If the deposit on account differs from the recalculated amount by more than \$10.00 for a residential customer or 10 percent for a non-residential customer, the Water District may collect any underpayment and shall refund any overpayment by check or credit to the customer's bill. No refund will be made if the customer's bill is delinquent at the time of the recalculation.

## MONITORING OF CUSTOMER USAGE

At least once annually the Company will monitor the usage of each customer according to the following procedure:

1. The customer's annual usage for the most recent 12-month period will be compared with the annual usage for the 12 months immediately preceding that period.
2. If the annual usage for the two periods are substantially the same or if any difference is known to be attributed to unique circumstances, such as unusual weather conditions, common to all customers, no further review will be done.
3. If the annual usages differ by 100 percent or more and cannot be attributed to a readily identified common cause, the Company will compare the customer's monthly usage records for the 12-month period with the monthly usage for the same months of the preceding year.
4. If the cause for the usage deviation cannot be determined from analysis of the customer's meter reading and billing records, the Company will contact the customer by telephone or in writing to determine whether there have been changes such as different number of household members or work staff, additional or different appliances, changes in business volume, or known leaks in the customer's service line.
5. Where the deviation is not otherwise explained, the Company will test the customer's meter to determine whether it shows an average error greater than 2 percent fast or slow.
6. The Company will notify the customers of the investigation, its findings, and any refunds or backbilling in accordance with 807 KAR 5:006, Section 10(4) and (5).

In addition to the annual monitoring, the Company will immediately investigate usage deviations brought to its attention as a result of its on-going meter reading or billing processes or customer inquiry.
